PROFESSIONAL SUMMARY

Frontend Web Developer with experience building and maintaining 60+ responsive websites. Strong in JavaScript, HTML, CSS, and WordPress theme development, with hands-on experience in Mapbox integration, performance optimization, and technical SEO. Comfortable working remotely and delivering projects independently.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP

Frameworks: React, Next.js, Astro

Tools: Git, GitHub, Figma, Tailwind CSS, Firebase, Cloudflare, Vercel, Mapbox GL JS

Specializations: Mapbox Integration, WordPress Theme Development, Technical SEO, Responsive Design

EXPERIENCE

FREELANCE | Frontend/Web Developer – May 2025 – Present

- Developed and maintained 60+ responsive tourism websites using HTML, CSS, and JavaScript, ensuring consistent UI and cross-browser compatibility.
- Integrated Mapbox for location-based navigation and interactive maps, improving content discovery and engagement.
- Implemented performance optimizations and technical SEO improvements, increasing search visibility and reducing page load times.
- Managed deadlines and remote client communication, delivering multiple projects concurrently with consistent quality.

FREELANCE | WordPress Custom Theme Developer – January 2025 – April 2025

- Converted 9+ static HTML templates into custom WordPress themes using PHP and Advanced Custom Fields (ACF), following WordPress standards.
- Built reusable theme components and flexible content structures to support scalable content updates.
- Improved responsiveness and cross-device compatibility across desktop and mobile view.

FREELANCE | Software Developer (Chrome Extensions) – October 2024 – December 2024

- Contributed UI fixes, feature enhancements, and bug fixes to 4 Chrome extensions using JavaScript and the Chrome Extensions API.
- Refactored components and scripts to improve maintainability and extension stability.
- Collaborated with clients to clarify requirements and implement changes efficiently.

JAIROSOFT INC. | Fullstack Developer – June 2024 – August 2024

- Built an internal timesheet MVP using Bubble.io, designing UI workflows and basic database logic.
- Worked with stakeholders to iterate on features based on feedback and usage.
- Participated in Agile sprints, documentation, and QA testing to support timely delivery.

EDUCATION

University of Mindanao, Davao City

Bachelor of Science in Computer Science – August 2025
