## PROFESSIONAL SUMMARY

---

Frontend/Web Developer with hands-on experience building and maintaining 30+ responsive websites. Strong in HTML, CSS, JavaScript, and WordPress theme development, with a focus on performance optimization and clean, maintainable code. Experienced working remotely and delivering projects independently.

## TECHNICAL SKILLS

---

**Programming:** JavaScript, TypeScript, PHP, Python

**Web & Platforms:** HTML, CSS, TailwindCSS, React.js, Next.js, WordPress, Chrome Extensions API, Bubble.io

**Tools & Practices:** Git, GitHub, Figma, Agile/Scrum, SEO Optimization, Cursor

## EXPERIENCE

---

### **FREELANCE | Frontend/Web Developer** – May 2025 – Present

- Developed and maintained 30+ responsive touring websites using HTML, CSS, and JavaScript.
- Integrated map APIs for location-based navigation and improved content discovery, resulting in ~20% faster load times and increased search visibility.
- Implemented performance optimizations and SEO improvements across multiple projects, enhancing user experience and site ranking.
- Delivered all projects independently, managing deadlines and remote client communication to ensure high-quality outcomes.

### **FREELANCE | WordPress Custom Theme Developer** – January 2025 – April 2025

- Converted 5+ static HTML templates into fully dynamic WordPress themes using PHP and custom template hierarchies, optimizing site structure for scalability and maintainability.
- Improved content management workflows, responsiveness, and cross-device compatibility, enabling clients to update sites efficiently.
- Delivered fully functional themes prepared for deployment, ensuring seamless integration with client requirements.

### **FREELANCE | Software Developer (Chrome Extensions)** – October 2024 – December 2024

- Designed, developed, and maintained 6 Chrome extensions using JavaScript and the Chrome Extensions API, implementing feature enhancements and debugging issues to improve stability and usability.
- Collaborated with clients to translate requirements into maintainable, scalable code, ensuring reliable extension performance across updates.

### **JAIROSOFT INC. | Fullstack Developer** – June 2024 – August 2024

- Built an internal timesheet MVP for ~50 employees using Bubble.io, designing UI workflows and database logic to streamline data entry and reporting processes.
- Participated in Agile sprints, documentation, and iterative feature improvements, ensuring timely and effective project delivery.

## EDUCATION

---

University of Mindanao, Davao City

Bachelor of Science in Computer Science – August 2025

## CERTIFICATIONS

---

- **Information Technology Specialist in Network Security** – May 15, 2025

- **Information Technology Specialist in Database** – June 3, 2024
- **Information Technology Specialist in Java** – December 1, 2022
