EDUCATION

UNIVERSITY OF MINDANAO — Davao City
Bachelor of Science in Computer Science — August 2025

TECHNICAL SKILLS

Programming: JavaScript, TypeScript, PHP, Python
Web & Platforms: HTML, CSS, TailwindCSS, React.js, Next.js, WordPress, Chrome Extensions API, Bubble.io
Tools & Practices: Git, GitHub, Figma, Agile/Scrum, SEO Optimization, Cursor

PROJECTS

TOURS, TICKETS & HIKING SITES — May 2025 – Present
Built and deployed 30+ touring microsites using HTML, CSS, and JavaScript. Integrated map APIs to enable location-based navigation and improve content discovery. Optimized site structure and performance, improving load times by ~20% and search visibility.

WORDPRESS THEME CONVERSION & CONTENT UPDATES — January 2025 – April 2025
Converted 5+ static HTML templates into dynamic WordPress themes using PHP and custom template hierarchies. Improved content management workflows, responsiveness, and long-term maintainability.

GOOGLE CHROME EXTENSIONS — October 2024 – December 2024
Developed and maintained 6 Chrome extensions using JavaScript and the Chrome Extensions API. Implemented feature enhancements and bug fixes based on client requirements, improving stability and user experience.

TIMESHEET MANAGEMENT WEB APP — June 2024 – August 2024
Designed and built an MVP timesheet system for ~50 employees using Bubble.io. Defined UI flows and database logic to reduce data entry errors by ~15% and support accurate internal reporting.

RELEVANT EXPERIENCE

FREELANCE
Frontend/Web Developer — May 2025 – Present
Owned end-to-end development of 30+ touring and location-based microsites using HTML, CSS, and JavaScript. Implemented map-based navigation and content structures to support user discovery and clear information flow. Optimized site performance and SEO, improving load times and increasing search visibility.

FREELANCE
WordPress Custom Theme Developer — January 2025 – April 2025
Developed custom WordPress themes from static designs using PHP and WordPress templating standards. Structured themes for scalability and ease of future content and feature updates.

FREELANCE
Software Developer — October 2024 – December 2024
Implemented features and resolved bugs for Chrome extensions, improving reliability and usability across updates. Coordinated with client to translate requirements into maintainable code changes.

JAIROSOFT INC. — Davao City
Fullstack Developer — June 2024 – August 2024
Developed an internal timesheet management MVP for ~50 employees using Bubble.io. Designed UI workflows and database logic that reduced operational errors by ~15%. Participated in Agile sprints, documentation, and iterative feature improvements.
